COLONEL JARVIS PINCHED. Fake Policemen Have Fun with Ber-

Thirty members of the "Farmers' club," a branch of the Union League of New Haven, including Major W. H. Lyon and W. F. Parker of this city, were held up near Derby Saturday by two fake policemen while speeding over a nice patch of "real good" state road, en route to the farm home of Attorney Robert J. Woodruff.

The farm of Farmer Bob Woodruff was to be the first stop, and Colonel Jarvis as president of the club was leading the way with ex-Governor Woodruff in the proverbial "large touring car," when the arrest took place.

trouble came with a sound of crashing brushwood, such as is made by a hippepotamus at play in a woodbin. Ten carleads of farmers pricked up their ears and there was a grinding of brakes as two huskles in the telltate blue uniform of the constabulary galloped across the road, accompanied by a large gate. Planting it directly in the path of the cars the limbs of the law motioned for a halt and issued formal statement to the effect that a formal statement to the effect that the "hull blamed bunch" were under

To the Last for Annexation.

In the remarks of the American press cause of continental union, that is to say, the union of the United States say, the union of the United States and Canada, we note here and there the impression that his faith weakened toward the last in consequence of the development of the imperial idea that naturally followed the participation of the colonies in the Boer war. The decline of Canadian interest in the question of amexation to the United States, or rather equal union with the United States rever changed Goldwin United States, never changed Goldwin Smith's view of the manifest destiny of the two branches of the Englishspeaking people on this continent. The following is an extract from an unpublished letter written as lately as March of last year:

March of last year: I came to Canada belleving, as almost all our public men in England, including even Disraeli, did, that independence was the ultimate destiny of the colonies. I was disillusioned in the case of Canada when I saw how the case of Canada when I saw how totally deficient in compactness her territory was and how strong, compared with the general population, was the French element. Compared with your population (in the United States) the French element would be trifling and would be soon absorbed. As surely as the ultimate union of Scotland with England was dictated by nature, so surely dictated by nature is the ultimate reunion of the English-speaking race on this continent. It will become more pressing in case of a formidable development on the side of Japan and perhaps China. It will be greatly to the advantage of my own country, which will thenceforth have on this continent instead of a precarious outpost a natural and very powous outpost a natural and very pow-

Less Expense Involved Than by Other and Less Effective Methods.

Hundreds of people have cured themselves of Tuberculosis by a very simple, inexpensive home method—fresh, air, careful diet and Eckman's Alterative.
This Alterative is not a new medicine. It has been conquering tuberculosis for many by Eyears, many cures resulting after sanatoria had talled and pronounced the cases incurable.
Think what this means. No specialist's fees; no sanatorium characes, no travelling expenses; no expensive egg-and-milk gorging. Eckman's Alterative has cured many people right in their own home, where their dear ones encourage them and sive them that tender home care which money cannot buy.

## Why Physicians Recommend Castoria

OASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First-The indisputable evidence that it is harmless: Second-That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third-It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system-not by stupefying it-and our readers are entitled to the information .- Hall's Journal of Health.
